

Wounds Research Network 7th National Scientific Meeting 2022

18th May 2022, Hampden Park, Glasgow

General Rules

Thank you for choosing to submit an abstract for a poster and/or oral presentation for the WReN 7th National Scientific Meeting 2022. The deadline for all submissions is **19th MARCH 2022** .

The following **general rules** apply.

- Your abstract should be a Maximum of 350 words
- The presenting or lead author must register as an active participant for the Scientific Meeting at the latest 14 days after acceptance of an abstract. Failure to do so may result in withdrawal of the abstract.
- Submission can be based on any aspect of wounds research and may include completed investigation, analyses, designs, methodological research, methodological issues or practical issues in clinical trial development or delivery, including for example:
 - Innovative trials designs
 - Outcome measurement
 - Core Outcome Sets
 - Recruitment challenges and solutions
 - Feasibility and pilot studies
 - Health Economics and Trials
 - Information technology and systems for trials
 - Statistical issues in trials analysis Data monitoring
 - Patient Involvement
 - Patient pathways
 - Qualitative research in trial design and conduct
 - Research Governance and regulatory issues in trials
- Generic names must be used for all references to products. Posters containing brand names or company names in the abstract text) will be rejected.
- Abstracts which have been supported by companies or authored by company personnel will be considered for posters only, and accepted so long as the abstract is considered by the Scientific Committee to be of educational value to the wounds research community.
- WReN reserves the right to reject submissions or to request changes prior to their acceptance. In all such cases the reviewers' decision will be final.
- If your abstract is accepted as a poster, the poster boards will be portrait orientation - 2m high by 1m wide
